The instruments used in dentistry are often very delicate, expensive and the chemicals used to clean instruments need to be specially formulated to effectively clean and disinfect without harming the instruments or users. Whiteley Medical has developed a range of instrument detergents and disinfectants specifically for use in Dentistry.

Pack Size: 5L, 1L

CLINIMAX

Instrument & Equipment Detergent

- Mildly alkaline, non-hazardous, multipurpose detergent for dental applications that is specifically formulated to meet the requirements of AS/NZS 4187 and AS/NZS 4815.
- Designed for use in manual and ultrasonic dental instrument cleaning, equipment cleaning and environmental surfaces i.e. lighting, benches and trolleys.
- ARTG No: 125528

Pack Size: 5L, 1L

MATRIX®

Biofilm Remover

- Medical devices are prone to biofilm growth – biofilms are responsible for a wide range of health related infections.
- Bacterial biofilms cause product failure, equipment contamination and increased risk of infection.
- Matrix® has demonstrated cleaning efficiency – institute testing and simulated soil tests have proven Matrix® to be the world's most effective medical device cleaner.
- ARTG No: 125529

Pack Size: 5L, empty 500mL bottle

SONIDET®

Medical Equipment & Instrument Detergent

- Safe for use on most instruments and devices.
- Specifically designed for both ultrasonic and manual cleaning operations.
- Free rinsing and bacteriostatic.
- Suitable for environmental surface cleaning where required.
- ARTG No: 125529

Pack Size: 5L, 500mL

INSTRUMAX PINK®

Instrument Grade Disinfectant – Low Level

- Helps reduce the risk of cross infection and is suitable for use on non-critical medical devices including X-ray head/cone and dental impressions.*
- Proven to kill bacteria and viruses including: Influenza Virus, Herpes Simplex Virus, E-coli and Hepatitis B Group Virus. AUST R 76798.

*Suitable for use on most alginates.

Pack Size: 5L, 1L

OPAL®

Instrument Grade - High Level Disinfectant

- OPAL® is an Ortho-Phthalaldehyde (OPA) based high level disinfectant that features a reuse period of up to twice the length of competitors.*
- OPAL® is suitable for manual disinfection of compatible semi-critical medical and dental devices.
- OPAL® Test Strips also available for testing MRC of OPAL®.
- ARTG No: 206575.

*When product is decanted from the bottle.

Surface cleaning of benches, trolleys and equipment within the dental environment using neutral detergents assists in removing organic soil from contaminated surfaces.

Pack Size: 500mL
