

DISHRINSE

MACHINE RINSE AID

**BENEFITS:**

- In-built scale inhibitor
- Works in hard or soft water
- Phosphate free
- Concentrated formulation

DISHRINSE is a liquid rinse aid designed as a water dispersant and neutraliser for use in automatic dishwashing machines. The primary function of DISHRINSE is to disperse the rinse water to ensure the rapid drying of dishes and utensils. The secondary function of DISHRINSE is to neutralise any alkali residue in the rinsing process to maintain a neutral pH at the end of the cleaning cycle.

MAJOR ADVANTAGES:

- DISHRINSE produces fast spot and streak free drying of all washed articles.
- DISHRINSE reduces the risk of bacteria by eliminating the need for towel drying.
- DISHRINSE controls lime scale in the final rinse area.
- DISHRINSE acts as a mild foam suppressant in all single tank machines.

METHOD OF USE

Use 1 to 2 mL per litre of water. DISHRINSE may be hand fed or metered with electronically metered dispensing equipment. Concentration required will vary slightly depending on the type of machine load and dilution in the cleaning solution tank during normal washing cycles.

Application: DISHRINSE is fed neat into small dishwashing machines or can be automatically fed by electronic dispensers into an industrial tunnel washer.

TECHNICAL ADVICE

For further information refer to Whiteley Industrial's How To Clean Kitchens information located in the Industrial Educations section of the web-site, www.whiteley.com.au

SAFETY DATA

For further information refer to the Material Safety Data Sheet (MSDS) located on the Whiteley Industrial web site: www.whiteley.com.au

HEALTH AND SAFETY STATEMENT

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.

ENVIRONMENTAL STATEMENT

Whiteley Industrial manufactures products that comply with Australian and International environmental policy. Whiteley Industrial aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley Industrial products are supplied in 100% recyclable containers.

Whiteley Industrial and its staff are fully committed to ensuring that our Australian environment and those international environs in which our products are used are enhanced by the use of technology, and that these environments are preserved for the enjoyment of future generations.
