

ELIMINATOR

HEAVY DUTY CHLORINATED FOAMING CLEANER

BENEFITS:

- Concentrated foaming sanitiser
- Effective against gram negative bacteria
- Effective against gram positive bacteria
- Works in hard or soft water
- Stable foam

ELIMINATOR is high foaming alkaline detergent designed for the cleaning and sanitising of food manufacturing and food processing industries. ELIMINATOR is a multipurpose sanitiser for use on most types of materials and surfaces in food processing establishments.

ELIMINATOR is extremely effective against both gram positive and gram negative bacteria. The in-built detergent system means ELIMINATOR is highly effective as a sanitiser in the presence of soils. ELIMINATOR is ideal for removing animal fats and oils encountered during the processing of foods, including meat, poultry and fish. ELIMINATOR is also highly effective in the removal of blood and protein matter.

ELIMINATOR is suitable for cleaning and sanitising of stainless steel tanks, pipes, processing equipment, floors and walls. ELIMINATOR is suitable for use in abattoirs for meat, poultry and fish products; citrus fruit and vegetable processing; canneries, food manufacturing and other food processing establishments.

The high foaming surfactants used in ELIMINATOR mean it is highly effective as a sanitising detergent for use through foaming devices. ELIMINATOR creates a high level of ultra stable foam designed to cling to all vertical and horizontal surfaces. ELIMINATOR contains a high level of sequestrant to ensure excellent performance in hard water and reduce scale formation.

ELIMINATOR also contains a highly buffered alkali reserve, good wetting and excellent rinsibility all contribute to quick, sure, regular cleaning and sanitising operation.

ELIMINATOR contains 4% (40,000 p.p.m.) available chlorine. The germicidal efficacy of chlorine compounds is directly related to p.p.m. available chlorine.

Eliminator - July 2014, 1

DIRECTIONS FOR USE:

Normal Cleaning: Use at 1:40 dilution with water through a foaming spray applicator.

Heavy Cleaning: Use at 1:20 dilution with water through a foaming spray applicator.

Light Cleaning: Use at 1:80 dilution with water through a foaming spray applicator.

Foam equipment, machinery, benches and floors. Allow 10 minutes contact time. Rinse all surfaces thoroughly with potable water after using ELIMINATOR.

SAFETY DATA:

For further information refer to the Material Safety Data Sheet (MSDS) located on the Whiteley Industrial website: www.whiteley.com.au

HEALTH AND SAFETY STATEMENT

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.

ENVIRONMENTAL STATEMENT

Whiteley Industrial manufactures products that comply with Australian and International environmental policies. Whiteley Industrial aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley Industrial products are supplied in 100% recyclable containers.

Whiteley Industrial and its staff are fully committed to ensuring that our Australian environment and those international environs in which our products are used are enhanced by the use of technology, and that these environments are preserved for the enjoyment of future generations.
