

FABRIRINSE

LOW RESIDUE FIBRE RINSE

BENEFITS:

- Leaves carpets and upholstery feeling fresh
- Neutralises and removes detergent residues
- Stabilises colours and dyes in rugs and upholstery and prevents resoiling
- Reduces the potential for browning problems

FABRIRINSE is an acidic fibre rinse suitable for use in both truck mount and portable carpet cleaning machines. FABRIRINSE utilises a unique blend of acid stable anionic surfactants to improve the wetting of carpet and upholstery fibres. FABRIRINSE provides improved economy and cheaper dilution ratios due to the infinite anionic surfactant solubility.

DIRECTIONS FOR USE

Truck-mounted Machines: To prepare truck-mounted solution, add 500mL/25L of water. Dilute 100mL/Litre of water through the venturi feed (overall dilution of 2mL/Litre with water).

Portable Machines: To prepare a ready-to-use solution, add 20mL/Litre of water.

pH Control: To determine that Fabrisinse is being used at the correct dilution, the pH of the effluent water should be measure using pH papers. The pH of the effluent water should be 6.0 to 7.0. If the pH is below 6 then the concentration of Fabririnse should be reduced. If the pH is above 7.0 then the concentration of Fabririnse should be increased.

SAFETY DATA

For further information refer to the Material Safety Data Sheet (MSDS) located on the Whiteley Industrial web site: www.whiteley.com.au

HEALTH AND SAFETY STATEMENT

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical

contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.

ENVIRONMENTAL STATEMENT

Whiteley Industrial manufactures products that comply with Australian and International environmental policy. Whiteley Industrial aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley Industrial products are supplied in 100% recyclable containers.

Whiteley Industrial and its staff are fully committed to ensuring that our Australian environment and those international environs in which our products are used are enhanced by the use of technology, and that these environments are preserved for the enjoyment of future generations.
